

HORIZONTAL MIXER

M.O. SERIES

The horizontal mixer is suitable to blend and moisten the raw materials before the production process (mixing and conditioning of cereals).

FEATURES:

It is used to mix cereals to be processed by adding water. Thanks to its double effective helical agitator, the horizontal mixer MO Series ensures an accurate and fast product mixing.

The machine is built in stainless steel AISI 304/316 and equipped with control systems and protections as required by CE directive.

In the processing plants, the mixer can be connected to a mechanical conveyor to automate the loading of the product into the hoppers of our presses.

MODEL	CAPACITY	POWER	DIMENSION	WEIGHT
M.O. 02	200 L	2,2 kW	1900x600x1270 mm	300 kg
M.O. 03	300 L	4,0 kW	2000x700x1350 mm	380 kg
M.O. 05	500 L	5,5 kW	2150x750x1500 mm	430 kg
M.O. 08	800 L	9,0 kW	2150x1000x1850 mm	600 kg
M.O. 10	1000 L	11 kW	2200x1350x1850 mm	750 kg
