

TWIST BINDING

MOD. MTB-100

The “Twist” manual binding machine **mod. MTB-100** is used for the closure of the “tube” package with twist band closure just after the packaging line.

OPERATING:

This type of machine is foreseen for medium-low production line (8-15 packages/minute).

The operator should insert the package bunch in the binding slot of the machine which will provide to bind automatically the package with a twist band.
